WE HELP YOU REMODEL, RENEW OR STYLE YOUR HOME OR COMPANY

Touch of Grace is a family-owned interior design company in Sweden. We offer individuals and companies help with remodeling, renewing or styling homes or businesses, through interior design proposals in the form of sketches, drawings, floor plans, and moodboards.

AFFORDABLE DIGITAL SOLUTIONS

With our affordable digital solutions you'll be able to realize your dream of creating the home or workplace you've been longing for. We want to make it easy for you and work digitally. It enables us to work both cost-effectively and internationally. Our service includes frequent contact and fixed prices. With our solutions you'll get what you need to realize your dream space by creating a beautiful and inspiring home or workplace.

ABOUT US

We are a committed team with international experience that works closely with our customers to create new environments together. PO has more than 15 years international experience från IKEA where he among other things has been leading sales and interior design teams. He has been part of developing many new concepts worldwide. During the past years he has been active in the Stena sphere where he designed and developed concepts for new ferries and offices.

Fanny is an artist and certified interior designer & home staging consultant. With an exceptional sense of color and shape, interior design and furniture, she creates the feeling and expression you are looking for.

OUR SERVICES

- Moodboard (describes the feeling and atmosphere in the room)
- Floor plan (shows your room from above with furniture and decor)
- Product list (digital links of furniture and interior details)

SUSTAINABILITY

Our love for interior design and history has long been a part of our lives, and awakened an interest in decorating more sustainably with both old and new pieces. More and more people understand the importance of making more sustainable choices. Through our service we encourage our customers to repurpose, reuse, upcycle and select sustainable materials, and when buying new, we try to inspire investment in long-lasting design.

Striving to use preloved furniture is important to us. It's not only about sustainability but also well-being, beauty and creativity. One's style must be allowed to develop and change over time, as an ongoing project. We help our customers make their home or business environment more personal and characteristic. Decorating a home or business on your own can be a daunting task; the colors and furniture must be chosen with care to achieve harmony and balance.

We like to mix old with new and create something that is both personal and pleasing to the eye, by combining preloved sustainable furniture/items with modern design. Durable and quality pieces stand the test of time. We believe they deserve to be used and admired again, but it's of course you as a customer and your wishes that shape the design.

HOW IT WORKS

We understand that everyone has different needs and wishes. We help with both small and big projects. Maybe you are only looking for a moodboard or a complete design package.

Send us an e-mail and we'll contact you, give you information and learn more about your wishes. We'll return with an offer and give you time to think it through. When you are ready and give your approval, we start the project of creating your new dream environment.
